

अखिल भारतीय तकनीकी शिक्षा परिषद् ALL INDIA COUNCIL FOR TECHNICAL EDUCATION

(भारत सरकार का एक साविधिक निकाय)
(A STATUTORY BODY OF THE GOVT. OF INDIA)

डॉ. अविनाश एस. पंत
Dr. Avinash S. Pant
अध्यक्ष (कार्यवाहक)
Chairman (Acting)

No. Academic/UG/DM/2009
Dated, the 13th January, 2015

To

All AICTE approved Technical Institutions, Affiliating Universities and Universities including Deemed to be Universities imparting technical education.

Sub : Guidelines on "Seismic Retrofitting of Deficient Buildings and Structures" prepared by National Disaster Management Authority, Govt. of India.

Sir,

National Disaster Management Authority, Government of India has formulated guidelines on "Seismic Retrofitting of Deficient Buildings and Structures" after taking into account the earthquake zoning in the country, building typologies and considering the need to strengthen weak buildings and structures. A soft copy of guidelines in PDF form is available in NDMA website, "[URLhttp://ndma.gov.in/images/guidelines/retrofitting-guidelines.pdf](http://ndma.gov.in/images/guidelines/retrofitting-guidelines.pdf)".

It is requested that the all AICTE approved Technical Institutions and affiliating Universities and Universities including deemed to be Universities imparting technical education may incorporate the guidelines prepared by NDMA in their curriculum appropriately. Dissemination of these guidelines amongst the engineering faculties and future engineers would go a long way in the endeavor to address risk of unsafe buildings and structures in the country.

Yours faithfully,

(Avinash S. Pant)
